

# Certified Stormwater Manager Recommended Reading List

APWA Education operates independently from APWA Certification.

APWA certification examinations are designed to assess your existing professional knowledge. No preparatory materials are required or considered prerequisites for earning APWA certifications.

A Certification Council, a semi-independent certifying body within APWA, governs each APWA certification program. In alignment with industry standards, Council volunteers maintain independence and are not involved in the development of preparatory programs.

The list below contains items referenced during the creation of the exam.

1. American Society of Civil Engineers. (2000). *Design and Construction of Urban Stormwater Management Systems: ASCE Manuals and Reports on Engineering Practice No. 77*. Reston, VA: ASCE.
