

Certified Stormwater Manager Recommended Reading List

APWA Education operates independently from APWA Certification.

APWA certification examinations are designed to assess your existing professional knowledge. No preparatory materials are required or considered prerequisites for earning APWA certifications.

The Certification Commission, a semi-independent certifying body within APWA, governs the APWA certification programs. In alignment with industry standards, commission volunteers maintain independence and are not involved in the development of preparatory programs.

The following publications will be referenced directly in the exam.

1. American Society of Civil Engineers, *Design and Construction of Urban Stormwater Management Systems*. ASCE Publications, 2000.
